Hardy Camellias

We are pleased to offer our customers a group of new cold-tolerant camellias selected and developed by Dr. P. W. Zimmerman of the Boyce Thompson Institute of Plant Research at Yonkers, New York. These varieties, all of the *japonica* strain, were propagated at Strawberry Hill from cuttings supplied by Dr. Zimmerman.

We guarantee these plants to be cold-tolerant as far north as Philadelphia and will replace without charge any plant which does not thrive in the given latitude. We know, however, that these camellias have done well much further north in numerous plantings without any special protection, and that with a little protection they will prosper even in areas where subzero temperatures are not uncommon.

If you live where extremely low temperatures prevail, we suggest setting the plants out of doors in spring in pots, transferring the pots indoors in November.

The dark green foliage, glossy and substantial, persists throughout the year, and this in combination with the very beautiful flowers which they bear early in the spring, makes these camellias the most attractive of shrubs for garden and home.

Plants are shipped between June 1 and July 15th in stout tarpaper pots from which they can be easily transferred to clay pots or planted in the open ground. With each plant there is supplied without charge enough of our own special camellia fertilizer for one year and detailed cultural directions. Our camellias offer an exciting adventure in gardening. We offer five choice varieties:

CHANDLERI ELEGANS A bright red double flower, a favorite among camellia growers.

DIXIE A full double small flower, light pink in color.

KUMASAKA (Lady Marion) Large double pink flower which opens fully to reveal the stamens.

PAGE Small, semi-double pink flower.

REV. JOHN BENNETT Medium sized, semi-double red flower which opens to reveal the stamens.

Prices postpaid: 6-12" plants \$3.00; 12-18" \$4.00; 18-24' \$5.00

Camellia fertilizer \$1.00 per pound.

A cold-tolerant camellia, one of Dr. Zimmerman's selections, flourishing out of doors just north of New York City.

Note

We would draw our customers' attention to the fact that unless they specify otherwise when ordering lily bulbs, we will substitute a variety of greater price where we are unable for any reason to supply the specific item requested; or if we are unable to supply the larger sizes of a desired variety, we will send two or more smaller bulbs for the same price.

CANADIAN CUSTOMERS: *We facilitate you on all import matters as soon as we receive your order.*

All lily bulbs are sent postpaid, but in view of high packaging and postal costs, on all orders under \$2.50 remittance should include an additional 50¢ to cover handling. Where transportation is west of the Mississippi, 50¢ should be added to help defray postal charges.

An ideal and inexpensive way to grow lilies is from seed. It results in vigorous stock, and in the case of hybrids (marked * in the lists above) you may get some-

thing new and perhaps valuable. Our seed is hand pollinated. Minimum orders for seed alone are \$2.50. With each shipment of seed comes a leaflet prepared by the North American Lily Society telling how to grow them. — Which leads us to urge our customers to become members of the N.A.L.S. The Society's Year Book, newsletters, round robins and seed exchange are extremely valuable. We will be glad to send you an application blank and sponsor your membership.

We offer the following valuable works on lilies:

By three of America's leading specialists — Dr. George L. Slate's "Lilies for American Gardens," \$5.00; Jan de Graaff's "The New Book of Lilies," \$3.50; Edgar L. Kline's "Reference Chart of Lilies for Garden and Greenhouse," \$1.00.

By international authorities — L. Tuffery's "Lilies are Easy," \$1.00; Woodcock & Stearn's "Lilies of the World," \$8.25; Alice C. Maxwell's "Lilies in Their Homes," \$3.50.

A Very Special Lilac Offer

We are celebrating the conclusion of our fifth year in business. We have kept our standards high and have found that gardeners have responded warmly and generously. Always our aim has been to supply customers with the finest of stock and then to help them in every way to get the best results with it.

To mark the beginning of our sixth year, we are making a Very Special Lilac Offer which will save our customers in some instances more than 40 percent from list prices.

Make your selections from the following highly desirable French Hybrids. Like all our lilacs, they are on their own roots. You will get 3-4' bushes of absolutely first class quality, carefully pruned over the years to assure early blooming in your planting. Any 3 different varieties, \$8.00, 6 different varieties \$15.00, express collect:

BLEUATRE, CONGO, ELLEN WILLMOTT, GEORGES BELLAIR, HUGO KOSTER, JULES FERRY, LUCIE BALLET, MME. ANTOINE

BUCHNER, MME. CASIMIR PERIER, MME. FRANCISQUE MOREL, MRS. EDWARD HARDING, PRES. LINCOLN, REAUMUR.

Or of the late varieties, 2-3' bushes, 3 for \$7.00, 6 for \$13.00, express collect:

CORAL, FLOREAL, ISABELLA, LUTECE, SYRINGA VILLOSA.

Unless a customer specifies otherwise we will substitute a nearly similar lilac where we are for any reason unable to supply the variety ordered.

Plants are shipped express collect in sizes above 18", otherwise parcel post prepaid.

We have a few extra fine specimens 5' and taller. Varieties and prices on application.

We recommend the American Association of Botanical Gardens and Arboreta's Lilac Survey, "Lilacs for America," as the best reference manual. It can be obtained from us for \$1.00.

Strawberry Hill Special Peony Offer

We are pleased to be able to continue to offer these fine plants in units of 6, 12, 18 and 24, some of the old favorites and many of the most valuable varieties yet introduced. They are unlabelled but each unit will include early and late varieties, various colors, singles and doubles and only one of a kind. Divisions will have at least 5 eyes each and will be sent to you carefully packed in sphagnum moss

immediately on being dug in September. Here is an opportunity to establish a peony planting at minimum outlay.

Prices are postpaid east of the Mississippi. Add 75¢ on 6 to 12 plants and \$1.00 on 18 to 24 plants to your remittance for shipments beyond the Mississippi.

6 for \$5.00, 12 for \$9.50; 18 for \$13.00;
24 for \$15.00.

Strawberry Hill Warranty

We guarantee that our nursery stock will reach you in perfect condition, freshly dug, true to name and of excellent quality. If for any reason you are dissatisfied with it, you are authorized to return it to us at our expense immediately on arrival. Your money will be refunded or new stock sent you, as you choose.
